Coaching Centre Tragedy in Delhi: A Call for Supreme Court Intervention?

On July 27, 2024, a catastrophic flood in the basement of Rau's IAS Study Circle in Old Rajinder Nagar, Delhi, claimed the lives of three young IAS aspirants. The flooding was caused by heavy rains, which led to severe waterlogging.

The basement, which lacked proper drainage, was inundated rapidly, trapping the students who were studying there. A nationwide debate has been triggered, about the need for stricter regulatory oversight and judicial intervention. Should the Supreme Court take suo moto cognizance of this incident? [Read more](#)

Artificial Intelligence in Corporate Governance: Balancing Innovation & Ethics

Artificial Intelligence (AI) is revolutionizing corporate governance by enhancing decision-making processes, improving transparency, and detecting fraud. However, this technological advancement brings with it significant ethical challenges. Balancing the benefits of AI with the need for ethical oversight is a pressing issue for global corporations. Experts suggest that a balanced approach, incorporating robust ethical guidelines and transparency, is essential for the sustainable integration of AI in corporate governance. This story explores case studies, expert opinion, and the potential future landscape of AI governance. [Read more](#)

Know the Expert
